inGear

Freightliner is proud to offer Detroit DT12 Automated Manual Transmissions as an option in our new Freightliner trucks.

Lonestar Truck Group is Your One-Stop Source for

TRUCK & TRAILER SALES, PARTS & SERVICE

How does the Detroit DT12 Transmission assist drivers?

- A pneumatic actuator engages the clutch and shifts the transmission, allowing for faster and smoother gear-shifts compared to electronic actuation.
- Several options of driving modes — depending on terrain and specific applications, including:
 - Performance Mode to climb mountains,
 - Eco Mode for efficient city driving,
 - Creep Mode to improve low-speed maneuverability, making it ideal for backing up to a loading dock or in traffic.
- A true two-pedal system and Shift Lever gives the driver full throttle control to increase acceleration when passing or driving on uphill grades.
- Virtual Technician is a factory-installed onboard diagnostic system that puts you in control of your business 24/7 and takes the guess-work out of power train repair by helping you to manage your business more efficiently.
- DT12 Transmissions come with a 5-year/750,000 mile standard warranty.

DETROIT™

DT12™

At Lonestar Truck Group our experienced sales staff would like the opportunity to explain what this technology means to you and your business. Please give your nearest dealer a call or visit our website at www.LonestarTruckGroup.com

COOLANT

Maintenance Special

\$299.00

PARTS & LABOR

to flush the cooling system

LET US ENSURE YOUR TRUCK'S COOLING SYSTEM IS SET UP TO FACTORY SPECIFICATIONS

by draining, flushing and refilling the cooling system with the proper factory coolant and additives.

This includes adding up to 12 gallons of OEM approved Extended Life 50/50 pre-mix coolant and the replacement of the coolant filter with a Luber-finer no chemical added spin-on filter.

See one of our service advisors at any Lonestar Truck Group location to get this done today!

Offer good through June 30, 2013
