**TRUCK & TRAILER
SALES, PARTS & SERVICE**

You've got to see this one-of-a-kind Western Star tire changer

Recently delivered by Dale Davis of Farmington Freightliner-Western Star

"Excerpts from Western Star/Star Nation"

We're sure this Western Star is unlike anything you've ever seen. After speaking with Dale Davis, General Manager at Farmington Western Star & Freightliner in New Mexico, we were blown away with this monster of a truck. He revealed that this is the largest tire handler in the world, and most definitely the first of its kind.

This beast is a 2014 Western Star 4900 with a DD15 engine and Allison transmission, and attached is a giant Stellar crane that can lift 20,000 pounds at full extension. It has a reach of 21 feet and a maximum clamping span of 164 inches with a continuous rotation of 360 degrees.

And who would ever need a truck like this? When you own a very large mining truck that needs the occasional tire delivered and installed... that's who needs it. Before this truck was delivered, the only method was to use a forklift device. Now, there's something suited specifically for this line of work. Dale Davis told Star Nation, "I like what this truck can do. It's pretty amazing how it can reach out there and put on those tires and wheels. It's almost like seeing a robot in action – it's very cool. And to see it in person is pretty amazing. It reminds me of something from the movie Transformers."

Dale continued talking about the brand, saying, "I'm a huge fan of Western Star. We predominantly sell them at our dealership. We have Freightliner and Western Star – both are good trucks – but we sell 95% Western Star."

When asked why such a high percentage for the Western Star brand, Dale replied, "Our vocations are heavy in oilfield and mining – more severe-duty applications. Western Star just holds up more than any other truck out there. And when our customers get inside one, they don't ever want anything else."

Once again, thanks to Dale Davis at Farmington Western Star & Freightliner in New Mexico for sharing this "pit stop tire changer". It will definitely give the pit crews of NASCAR a run for their money.

Farmington Freightliner-Western Star is a full service dealer located in Farmington New Mexico and is a member of the Lonestar Truck Group.

NOW 11 FOR 11 — ELITE SUPPORT CERTIFIED DEALERS

ELITE SUPPORT: What is it?

Elite Support is an Elite group of Freightliner/Western Star authorized service outlets delivering a superior service experience, in a consistent manner, at a good value, as validated by the customer.

How does a Dealer Qualify?

Dealer participants must meet 135 defined standards and best practices and be certified annually. Each facility is required to have a Continuous Improvement Coordinator on site to facilitate continuous improvement methodologies.

How do the Customers Benefit?

As a Certified Elite Support Dealer, we are required to demonstrate proficiency in 20 different areas such as Express Assessment, Sales, Service & Parts processes, Customer Follow-Up and Communication, Technical and Operational Training and Customer Amenities.

Commitment:

The Lonestar Truck Group offers uncompromising support and unparalleled expertise at each of our 11 locations.

To learn more, visit:
www.servicesupportnetwork.com

See page 4 of InGear for a complete listing of all Lonestar Truck Group dealers and locations.
