September 2014

THE SMART BUSINESS DECISION.
Designed, engineered, and factory assembled alongside new Freightliner and
Western Star trucks. Each glider is a brand new, complete assembly that in-
cludes the chassis, steer axle assembly complete with wheel ends, brakes,
wheels and tires; complete cab assembly with OEM windshield, instrument
panel, custom built interior, new hood, fenders, bumper and factory finish paint.

EVERYTHING YOU NEED.
INCLUDING EXTENDED WARRANTY ON ENGINE,
TRANSMISSION & REAR AXLES
Lonestar Truck Group powered gliders come with a factory installed
remanufactured ’98 EPA Detroit Series 60 engine.
The Detroit Series 60 remanufactured engine and Eaton Fuller remanufactured
transmissions that are in a Lonestar Truck Group Glider were both reman-
ufactured at a Detroit and Eaton facility.

Features:
- Factory built Dana-Spicer axles.
- OEM exhaust.
- Stop, turn and backup lights with brackets and fasteners.
- Rear mud flaps, mounting brackets and hardware.
- New tires and wheels.
- Complete cab assembly with OEM windshield, instrument panel and interior appointments.
- AC compressor and power steering pump.
- Factory installed Reman ’98 EPA Detroit Series 60 engine.
- New hood, fenders, grill and bumper with factory finish paint.
- Radiator, shroud and charge air cooler are pre-installed at the factory.
- New steer axle with wheel ends, new brakes, new tires and wheels.

IMPORTANCE OF MAINTAINING THE CHARGING SYSTEM AND BATTERIES

LEADING CAUSES OF CHARGING SYSTEM FAILURE:

✔ Dirty battery terminals or wire connections.
✔ Corrosion build up on the terminals and connections.
✔ Not keeping the batteries charged.
✔ Premature failure of the alternator.
✔ The alternator is designed to keep the batteries at a full charge but not to charge them up when dead.
✔ A slipping belt can make the alternator undercharge the system, which will eventually kill the battery and damage the alternator.

RESULTS OF NOT MAINTAINING CHARGING SYSTEM AND BATTERIES:

✔ Breakdown
✔ Stranded on the road
✔ Costly Repairs

SOLUTIONS:

✔ Regularly check and clean the battery connections.
✔ Keep batteries properly charged at all times using the proper charger and the proper charging method outlined by the type of battery according to the manufacturer’s recommendations.
✔ Regularly check alternator belt for wear and damage to prevent slippage on the alternator pulley wheel.
GREAT BUYS on new and used trucks and trailers — September

2010 Mack Pinnacle CHU613, MP8 Mack Engine 415 HP; Diesel; 10 Spd OD; Engine Brake; Camelback Suspension; 3.67 Ratio; 22.5 Tires; All Aluminum Wheels; 218 in Wheelbase. (AN005811-ABL-1)

THE SMART BUSINESS DECISION.

Benefits:

- Lower total cost of ownership.
- Engine Simplicity.
- Weight Savings.
- 3 Year/300,000 Mile Extended Warranties on Engine, Transmission and Rear Axles.
- Financing through Daimler Financial is available with approved credit.
- Each factory-installed component on a Lonestar Glider is covered by Freightliner’s and Western Star’s Warranty, thus providing peace of mind knowing the Lonestar Glider is backed by the OEM’s outstanding network of dealers to provide expert service, unmatched parts availability and total customer support.

Lonestar Truck Group Gliders are now in stock and ready for immediate delivery.

Lonestar Truck Group currently has Freightliner Columbia CL120’s, Freightliner Coronado CC132’s, and Western Star 4900FA’s in an assortment of Sleepers and Daycabs.

IN STOCK AND READY TO WORK.

Don’t compromise your productivity with a used truck that may not fit your needs. Select a Lonestar Glider with the exact configuration and equipment you need and get like-new performance while reducing your cost of ownership.
